“Darkness cannot drive out darkness, only light can do that. “

Martin Luther King

About Us

Rafeed provides the best and newest technology in LED lighting, and consultancy services with the application process for all Rafeed products, creativity and honesty lead to unique wide-range products.

We are proud to have pioneered the application of LED technology in industry. Our expertise has grown from there. Today we offer next-generation lighting solutions and other visual products using LED's. As scientists believe that LED lighting has the potential to reduce lighting energy use in the world by one-fourth. With the promise of being more than ten times as efficient as incandescent lighting, light-emitting diodes (LEDs) will change the way we light our homes and business. We believe that LED lighting has the potential to revolutionize the lighting market through the introduction of highly energy efficient, longer lasting and versatile light sources.

Lighting For OFFICES

Quality, flexibility and efficiency are the key features of RAFEED lighting solutions for offices. The standard-compliant and glare-free illumination of rooms and individual workstations supports concentrated and fatigue-free work in the long run. If activities change, then lighting conditions can be rapidly modified to the new requirements.

WAY OUT

Lighting For HEALTHCARE

While light ensures clarity in treatment areas and in laboratories, for example, when it comes to patients and staff it should primarily promote a sense of wellbeing. It is also important to strike this balance optimally in doctors' offices. Together , we identify the specific requirements in your situation and thus create ideal working and healing conditions.

Lighting For EDUCATION

A well-planned learning environment increases the student's opportunities to benefit from education. With our lighting control package, light can be adapted to different learning activities and facilitate the cognitive process. That it also saves energy and is easy to use is a bonus in this context. Smart, sustainable and for the long-term.

Our Partners

We offer flexible combination of high quality LED chips and drivers for all lighting fixtures with five years warranty.

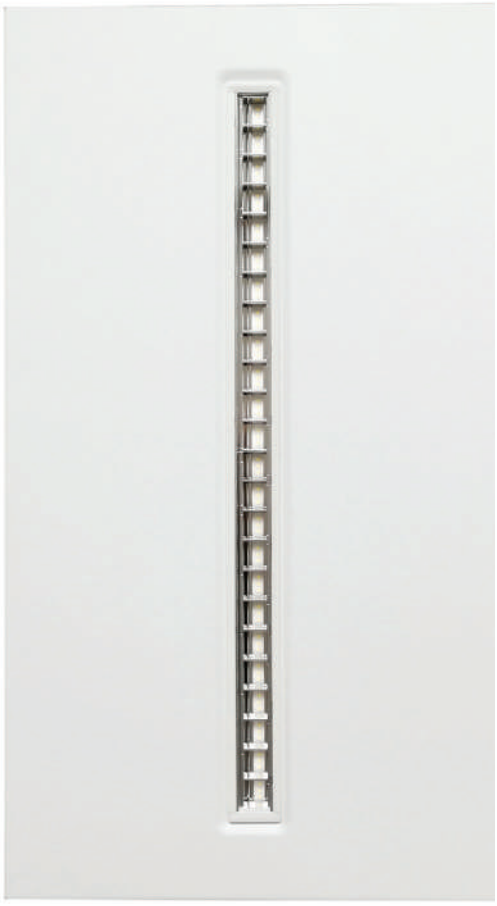
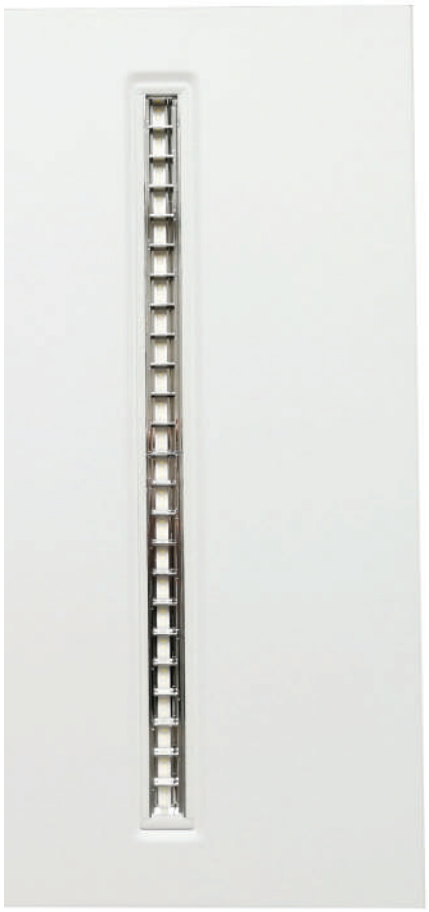
Dana Series



Dana represents a high-quality lighting solution for office buildings, It provides maximum efficiency and a uniform illumination every where.
It's perfect for areas, where you need maximum flexibility of space arrangement or when the final layout is not yet known.

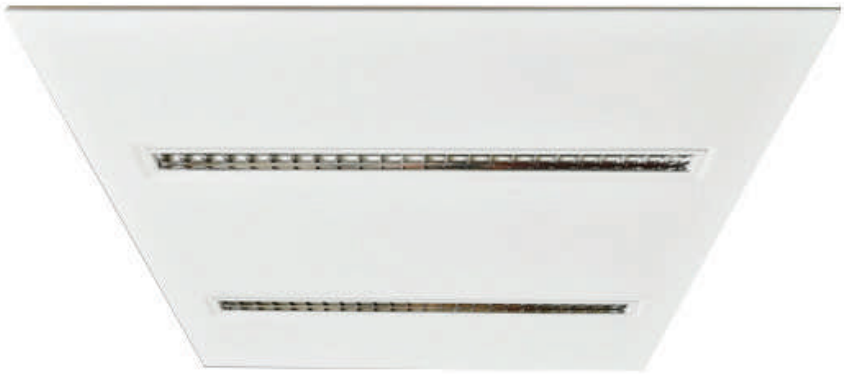
دانـــا



The universal luminaire body can be installed in plasterboard or modular ceilings
Ensuring the best match with the **interior space design.**

High-quality lighting solutions that provide maximum efficiency and a uniform illumination
Everywhere. It's a perfect fit for everybody that doesn't know the position of the furniture
But still needs an even illumination of the entire space.

Dana Series



Features

- This led panel light adopts grill optical design.
  Low UGR helps offer the most comfortable lighting environment.
- Modular design is suitable for different size of light body and ceiling grid.

- Application : Office, Basement lighting, Light box and sign back-lighting, Gym lighting, Hospital
  School, Supermarket, Restaurant, Market, Government institution, Showrooms and other indoor public places.

Tulip Series

The contemporary **center lens design** delivers a soft natural glow with even illumination and minimized glare making it an attractive general-purpose ambient lighting solution.

Durable steel construction with white powder coat finish.

تـوليــب

Advanced optical design generates even light distribution with optimal uniformity providing glare-free illumination.

More than **100** lm/w, pass **UL** and **DLC** certificate.

Tulip Series

Features

- Uniform and soft light, advanced reformative optics delivers greater distribution and uniformity.
- Low Brightness Eliminates "Pixilation".
- Up to 50% energy saving compared with fluorescent troffer.
- Lighting source module design, easy installation and maintenance.
- Superior Thermal Management Reduces Heat Sink Size.

- Application : Office, Basement lighting, Light box and sign back-lighting, Gym lighting, Hospital School, Supermarket, Restaurant, Market, Government institution, Showrooms and other indoor public places.

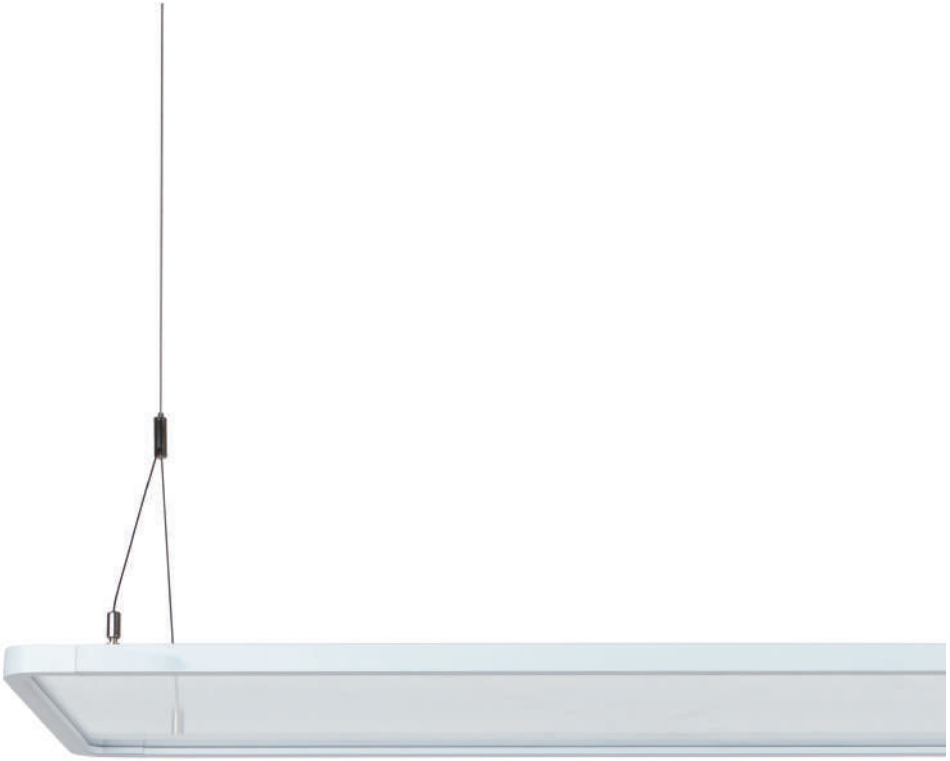
Anmar Series



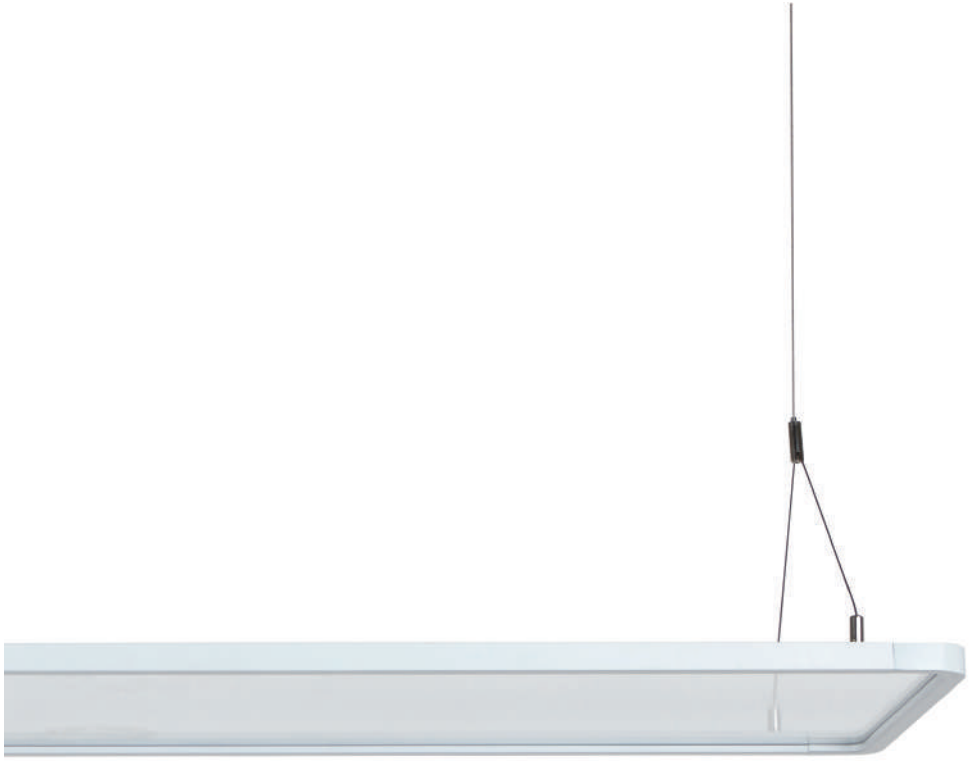
ANMAR Intelligent Transparency Indirect/Direct

Optional glare control and uniform illumination.
DALI, 0-10V dimming, CCT Tunable.

Available in Multi colors.

◯ White ◯ Silver ● Black

أنمـــار



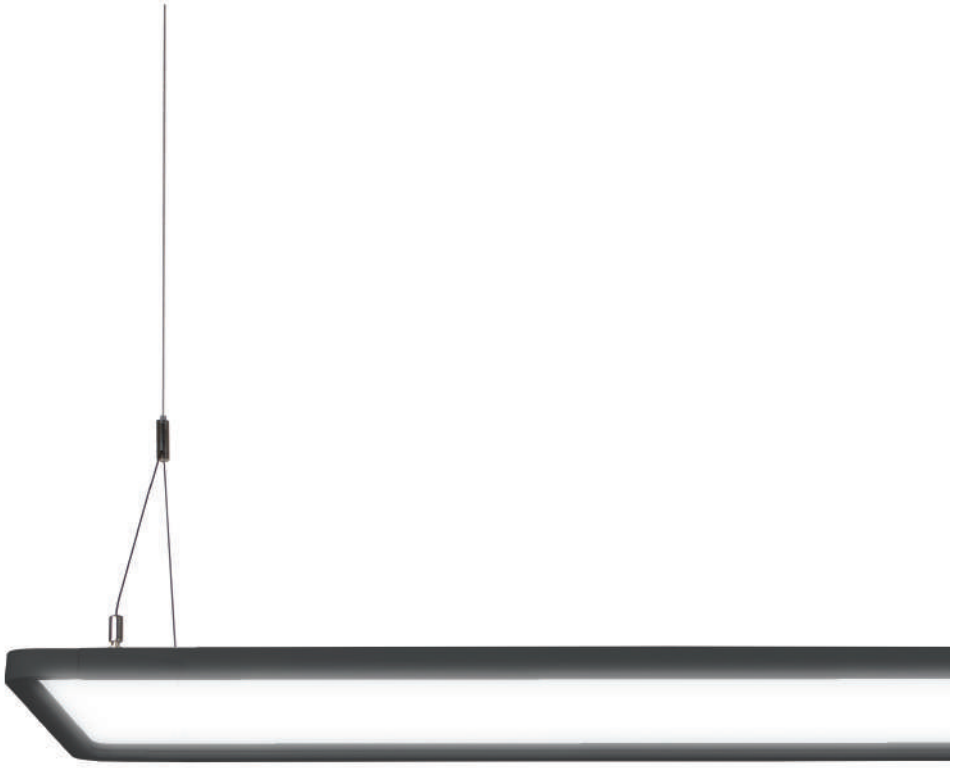
Illusion of zero Gravity

The pendant LED luminaire Transarency seems to be made of two states: when off there is just a18mm visible slim frame and a transparent panel, turned on it becomes a light statement in the room, minimalist and clear-cut.

Pure Architecture

The transparent nature of the material allows the creation of a light and transparent architecture. Since the luminaire does not superimpose the language of architecture, interiors retain thier orginally planned autonomy,When switched on, the luminaire allows spaces to be delibertely re-interpreted.

Anmar Series



Ultra slim Aesthetic design

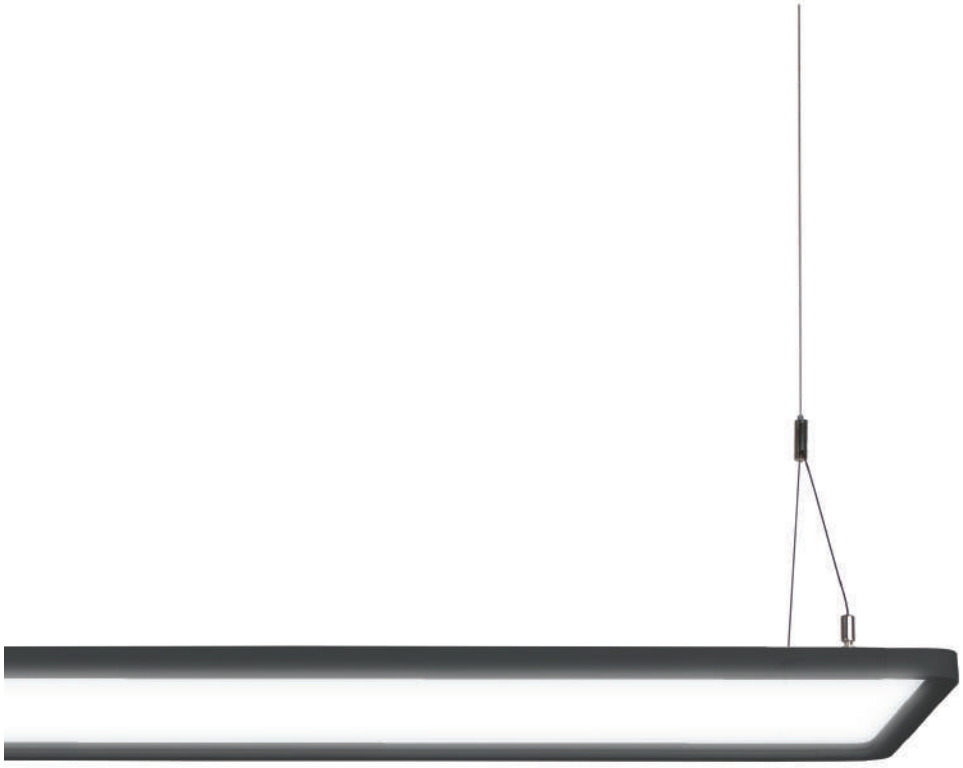
Ultra-slim and streamlined appearance makes the floating square luminaire highly meets the aesthetic indoor lighting design.

Transparent LGP and round corners could also anhance the spatial experience.

Available in two shape

Round corner, straight corner.

أنمـــار



Glare-free up to 120lm/w

Uniform Light ; Optimal Light Distribution

with both direct and indirect light distribution, the luminaire could creats a pleasant ambience. the adjustable light distribution ratio makes it satisfy the various demands of modern office lighting.

Anmar Series

Features

- Intelligent Transparency Indirect/Direct (40% uplight 2400lm and 60% downlight 3600lm).
- Elegant design efficiency of more than 120lm/w.
- Optimal glare control.
- Uniform illumination, direct and indirect light.

- Application: Reception and open areas for offices, Education, High-End Restaurant, ...etc.

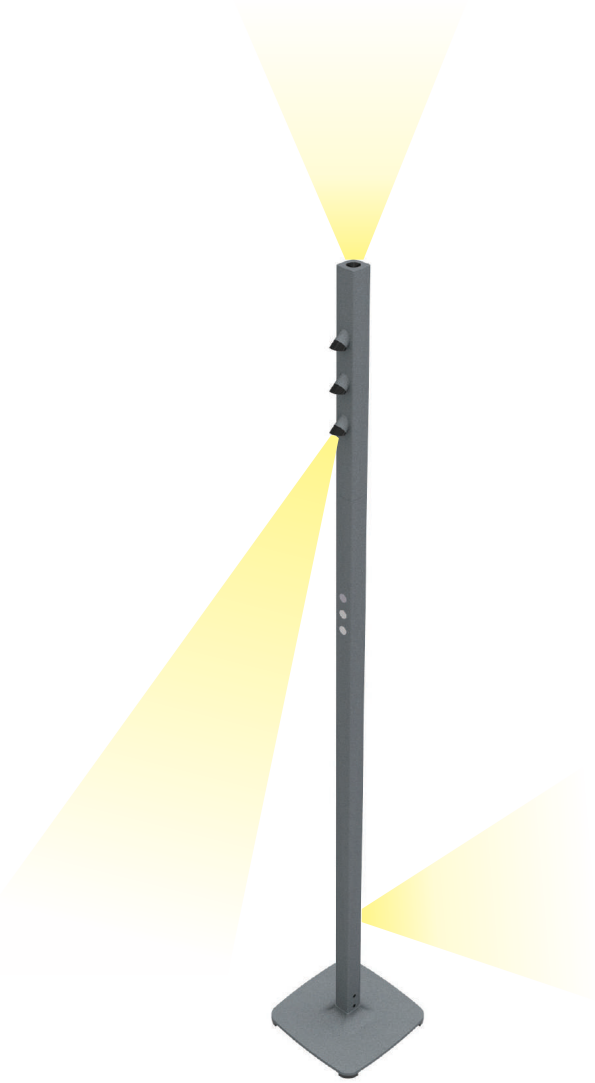
Flaco Series



فـلاكـــو

FLACO floor lamp series , housing made of high pressure extruded aluminum construction, die-cast aluminum and caps with no visible screws, surface treatment is the sand oxidantion and flame retardant PC lens+ flame retardant PC anti-glare cover, UV and corrosion resistance , with beautiful appearance , the scientific proportion and reasonable dimensions. Flexible installing methods, with excellent heat dissipation . The luminarie combined with the concept of direct/indirect lighting distributions, applying ant-glare diffuser and double transmission princlple of secondary reflection, flame retradant PC honeycomb grille, without visible dark spot or light gaps in seamless continuous lighting system. Advanced thermal managment technology to ensure consistency of LED life span, color temperature and maximize output lumens.

Flaco Series

Features

- Floor lamp with high-quality aluminum alloy, fine sand oxidantion (white, black, brown gray) matte powder coating (matte white).
- Flame retardant PC lens + flame retardant PC anti-glare cover.

- Application : School, Office, Classroom ,Commercial lighting and other applications.

Installation

Direct / Indirect Light

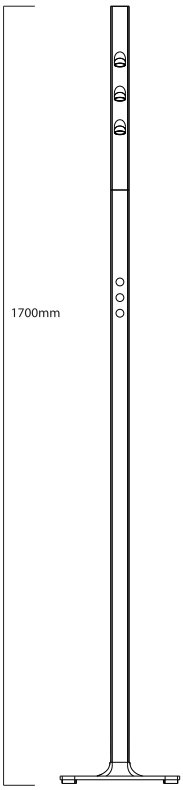
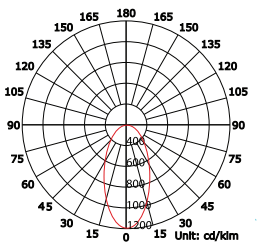
Specifications

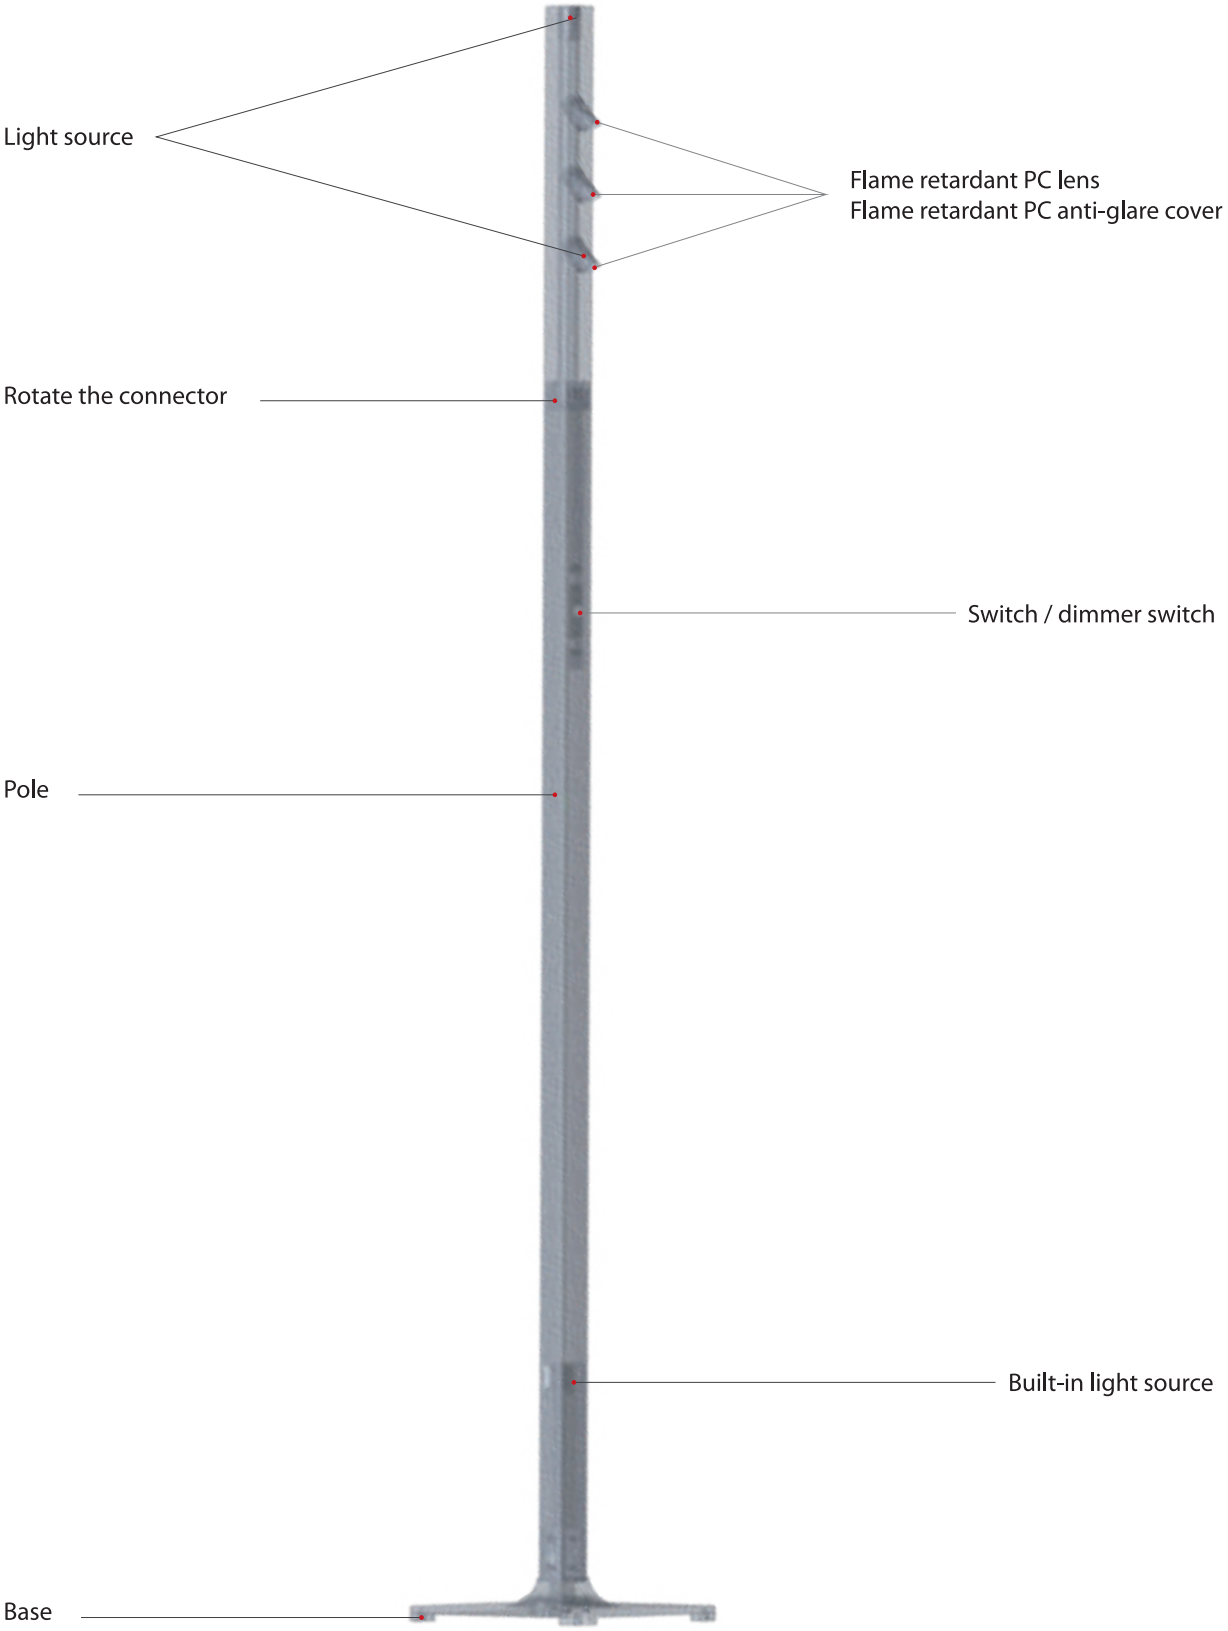
Model	Power / Flux	L x W x H	Colour	CRI	CCT	Body Material	Beam Angel
PR-FL-FLA25-01	25 w/2000 lm	250x250x1700mm	White Silver Dark Gray Black	90	3000K 4000K	Aluminum	46°

Product size



Photometric





Light source
Flame retardant PC lens
Flame retardant PC anti-glare cover
Rotate the connector
Switch / dimmer switch
Pole
Built-in light source
Base

Symbols

General Lighting
Lighting designed to provide a substantially uniform level of illumination throughout an area.

Indoor Lighting

Ingress Protection Rating
Refer to the level of protection offered against solids and liquids.

Flicker free

DALI
Lighting control system.

High Quality Product

Long Life Span

CE Certification
CE stands for "Conformité Européenne" means that the manufacturer takes responsibility for the compliance of a product with all applicable European health, safety, performance and environmental requirements.

RoHS Certification
Product level compliance based on the European Union's Directive 2002/95/EC, the Restriction of the Use of certain Hazardous Substances in Electrical and Electronic Equipment

CCC Certification
China Compulsory Certification (CCC) is similar to other certifications for product quality standardization, such as the European CE system.

SAA Certification
Standards Association of Australia, a third-party certification body to issue Certificates of Conformity for declared and Level 3 products and Certificates of Suitability for all non-declared electrical equipment.

TUV Certification
A sampling of the product has been tested for safety and found to meet the minimum requirements of the German Equipment and Product Safety Act.
